DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I Claim 1-15, and 25-27 are drawn to Control of data admission to the network, classified in class 370 , subclass 230.
- II. Claim 16-20, drawn to Queuing arrangement, classified in class 370, subclass 412.
- III. Claim 21-24, drawn to Flow control of data transmission through a network, classified in class 370, subclass 235.

1. Inventions III and I are directed to related products/processes. The related inventions are distinct if the (1) the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect; (2) the inventions do not overlap in scope, i.e., are mutually exclusive; and (3) the inventions as claimed are not obvious variants. See MPEP § 806.05(j). In the instant case, the inventions as claimed have a different function. Invention III is drawn to Flow control of data transmission through a network is different than invention I, which learns process Control of data admission to the network. Furthermore, the inventions as claimed do not encompass overlapping subject matter and there is nothing of record to show them to be obvious variants.

2. Inventions II and I are directed to related products/processes. The related inventions are distinct if the (1) the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect; (2) the inventions do not overlap in scope, i.e., are mutually exclusive; and (3) the inventions as claimed are not obvious variants. See MPEP § 806.05(j). In the instant case, the inventions as claimed have a different function. Invention II is drawn to Queuing arrangement is different than invention I, which learns process regarding Control of data admission to the network. Furthermore, the inventions as claimed do not encompass overlapping subject matter and there is nothing of record to show them to be obvious variants.

3. Inventions III and II are directed to related products/processes.
